

The Hidden Tax of Unreliable Hardware

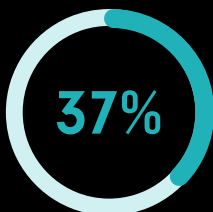

It's costing more
than you think.

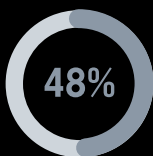

relay

A System Designed to Fail

The Daily Breakdown:

of frontline communication devices fail every single day

Battery Drain

Connectivity Failures

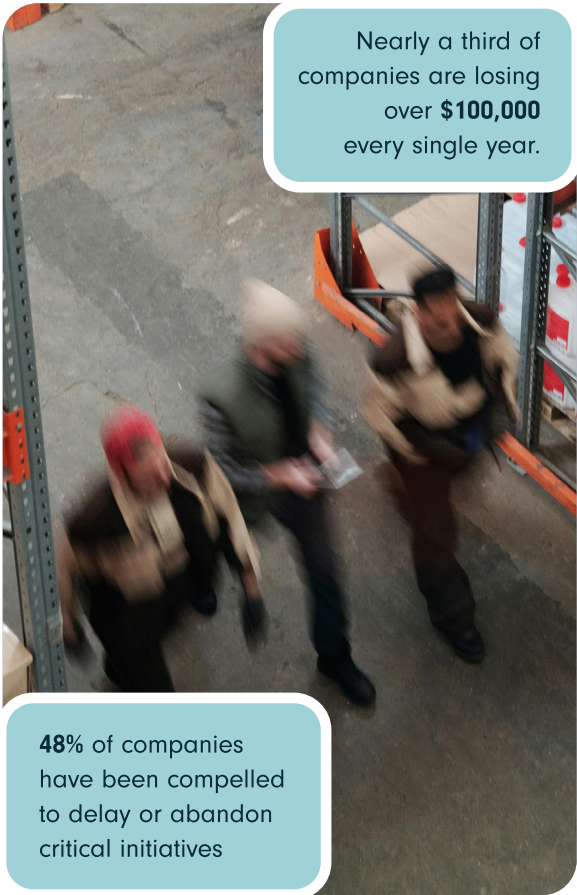

Physical Damage

1 in 4

Organizations **lose more than an entire day of productivity every month** just dealing with the administrative fallout of troubleshooting, repairing, and replacing their broken and unreliable technology.

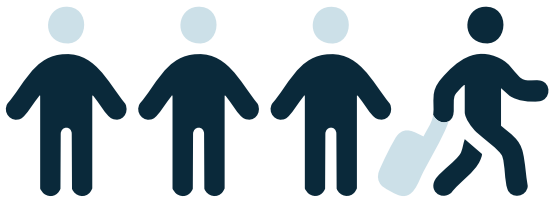

The Domino Effect on Your Business

Nearly a third of companies are losing over **\$100,000** every single year.

48% of companies have been compelled to delay or abandon critical initiatives

1 in 4 frontline workers feel their equipment is second-class

43%

of frontline workers would be less likely to quit if they were guaranteed modern, automatically upgraded devices

Break the Cycle

Introducing the Relay Fleet Shield™ Program.

Eliminate operational downtime.
End budget surprises. The Relay Fleet
Shield™ Program transforms your
hardware into a predictable, future-proof
service, providing your team with the
modern, reliable tools they need
to succeed without the hidden costs.

**This data is a wake-up call:
legacy communication tools
are a hidden tax on productivity
and a drain on morale**

Chris Chuang
CEO of Relay

Fleet Shield™

Our Unbreakable Guarantees

The Upgrade Guarantee

Keep your fleet cutting-edge. Refresh every device with new models at a reduced cost, protecting your investment and bottom line.

Painless Replacements

For any covered operational failure, we provide a full device replacement at no cost, shipped next-day. Lost or broken devices are replaced for 50% off.

Proactive Monitoring & Support

Our system monitors device health to preemptively replace units before they can cause a slowdown. This turns downtime upside down and ensures your operations stay on track.

relay

Stop the cycle.

Protect your fleet and your future.
